

Green External Partnership Manager

YouthBuild Lake County (YBLC), located in North Chicago, Illinois is looking for a full-time Green External Partnership Manager to manage a new federally funded Green Capacity Building Grant. This position will report to the Executive Director and is funded for one year.

Responsibilities:

- Manage new grant including meeting outcomes and grant reporting
- Develop relationships with local green businesses
- Research and understand the green business needs in Illinois
- Research skills sets, competencies and career ladders for entry level green jobs.
- Develop and document green sector strategy.
- Help build placement, and especially green placement capability within the agency working with members of the programming staff
- Provide professional development to YBLC program staff based on research
- Manage curriculum development to include changes to reflect the needs of green businesses
- Help secure relationships for placement of trainees in green careers including development of partnership agreements
- Work closely with our Green building team to find opportunities for trainees

Requirements:

- Bachelors Degree- preferably in business development or construction management
- Minimum of seven years experience in business development, construction or workforce development
- Prefer job placement and partnership development experience.

Salary commensurate with experience. Candidates should expect to be interviewed by YBLC staff. Position will remain open until filled. Please submit resume and salary requirements to:
